Are you still emailing PDF invoices to your customers when they'd rather have you use the Ariba Network? With Advanced Data Automation for Invoices, you can automatically convert digitally created PDF invoices to Ariba Network invoices. This means quicker processing of invoices and approvals so you can get paid faster, and you can create a better experience for your customers that use SAP® Ariba solutions.

MODERN INVOICING

It's easy to make your invoicing processes more efficient, and adopting modern ways of managing invoices is key. This is one of the many reasons that so many buyers use SAP® Ariba solutions. With the Advanced Data Automation PDF to invoice capability, suppliers can e-mail or upload PDF invoices directly to Ariba Network, with minimal change management, and automatically have them converted to an Ariba Network invoice document. Using Ariba Network for your invoicing eliminates the risk of manual entry errors, lost documents, and duplicate invoices, with 100% conversion accuracy from digital PDFs.

GET PAID FASTER

For suppliers, Advanced Data Automation for Invoices not only creates efficiencies through automated invoice creation in Ariba Network, but also streamlines processes with the ability to create line-item debit and credit memos from the same invoice. The average time to process an invoice decreases as processes are centralized, and suppliers can see a faster turnaround in their receivables.
